

REMARKS

The advice about the Information Disclosure Statement is noted.

The forgoing amendments to the specification are made to amend the reference to the priority application, and to insert the required SEQ ID NO identifiers in the paragraph relating to Figure 2 on page 6.

The sole claim in the case is Claim 92. This claim relates to the molecule which is described and enabled in the specification, and which was elected for prosecution. No prior art has been applied in a rejection against this subject matter. The rejections under Section 112 have been overcome by including language that meets the Section 112 requirements, MPEP 2163.

Favorable reconsideration of the application as amended is respectfully requested.

Respectfully submitted,
